DETAILED ACTION

The submission of amendment filed on 6/19/2006 is acknowledged. At this point claims 14 and 16 have been amended, claims 15, 22-28 have been canceled and the remaining claims left unchanged. Thus, claims 1-14, 16-21 are at issue in the instant application.

Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to Claims 1, 14 the prior art of record fails to show an indirect lighting device including an optical cavity and a partially transmissive baffle positioned outside the cavity and between the cavity wall and the field of illumination.

Claims 2-13 are allowed as claims depended on claim 1.

Claims 16-21 are allowed as claims depended on claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 6/19/2006 have been fully considered but they are not persuasive.

Applicant argues, that language of the Statement of Reason for Allowance is not the same as a language of claims 1 and 14.

In response, the Examiner would like to direct Applicant's attention to the fact, that in accordance with the Examiner's Statement, the prior art of record fails to show a partially transmissive *baffle*, which, as shown in claims "*positioned between the section of the cavity wall and the first field (only, [M.T.]) of illumination*" (claim 1, lines 10-12; claim 14, lines 11, 12).
